

## PRODUCT EVALUATION PROTOCOL

The criteria to participate in the EternLFX evaluation program are listed below.

Combilytics will provide 2 or 3 cycles of EternLFX at no charge and pay for shipping. The number of cycles will be mutually agreed upon. The participant is to pay for 2 epigenetic DNA methylation tests, one before and one after the evaluation, a discount code will be provided.

The steps and conditions are listed here;

1. Sign a Product Disclaimer.
  - a. Home address, contact info (email, phone number) is required
  - b. Once signed, a list of compounds will be provided to the tester for evaluation of any contraindications for participating. (allergies, health conditions, medications, etc.)
  - c. Detailed instructions will also be provided at this time for you to evaluate for your ability to comply with the cycling process.
  - d. If there are any issues noted at this point, the evaluation will not proceed.
2. Commit to two epigenetic DNA methylation tests.
  - a. The participant will provide the before and after test at their expense,
  - b. We are using [www.trudiagnostic.com](http://www.trudiagnostic.com) to conduct these tests.
  - c. A discount code of approximately \$120 will be provided for each of these tests
  - d. The participant, “you” will be responsible for return shipping cost of the tests.
3. Provide the results to Combilytics.
  - a. Timely submission of the tests is expected. As this is not a controlled process, we are relying on the participants complying with the spirit of the evaluation in helping Combilytics.
  - b. Combilytics reserves the right to publish these results in a manner that protects the identity of the evaluator and to use the data to further develop new products.
4. One test is to be done prior to starting the EternLFX evaluation program.
  - a. Since it can take 4 to 6 weeks to get results, we commit to speeding up the process for the participant by shipping the first cycle of EternLFX upon confirmation the first test has been shipped back to Trudiagnostic.
  - b. The participant will send in the first test sample prior to starting the first cycle.
  - c. It is not necessary to get the result back before starting the eval, as soon as the test sample is shipped you can begin your 1<sup>st</sup> cycle of EternLFX
  - d. When the first test results are returned to the participant, they will be shared with Combilytics in a timely manner.
5. Commit to a 4 or 7 month “term”, this means cycling EternLFX 2 or 3 times.
6. Get a final methylation test done after the last cycle and provide results to Combilytics in a timely manner.

There can be either a 4 month (2 cycle) evaluation or a 7 month (3 cycle) evaluation as indicated below;

Month 1	Month 2	Month 3	Month 4	Month 5	Month 6	Month 7
Cycle 1			Cycle 2			Cycle 3
4 weeks <b>on</b>	4 weeks <b>off</b>	4 weeks <b>off</b>	4 weeks <b>on</b>	4 weeks <b>off</b>	4 weeks <b>off</b>	4 weeks <b>on</b>
